IV GUARD®

IV Line Management... MANAGED.

IV Guard® sets the standard for IV line management. No other organizer fits securely on more beds, offers up to 7 ports, includes product labels and moves easily from bed rail to IV pole. The tubing ports are uniquely surfaced to allow lines to slide when needed during patient movement.

Why Hospitals Need IV Guard

- ▶ Track all patient IV lines to IV fluids quickly and easily
- ▶ Protect caregivers, patients and visitors from dangling IV lines
- ▶ Save time and money by avoiding costly IV errors
- ▶ Prevent dislodging IVs when turning or moving patients
- ▶ Eliminate IV line contact with floor during ambulation
- ▶ Reduce legal liability associated with IV line incidents

Features & Specs:

- ▶ Organizes up to 7 IV lines
- ▶ Includes waterproof stickers (14 blank medication labels & 3 blood product indicators) that are permanent marker compatible
- ▶ Clamps securely & easily attaches to IV poles and hospital beds
- ▶ Matte surface on all IV ports allows tubing to slide as needed
- ▶ Non-metallic body with non-ferrous screws for MRI compatibility
- ▶ Withstands standard hospital cleaning & disinfection protocols
- ▶ Resists IV and body fluids
- ▶ Recessed patient sticker space on nurse side
- ▶ Patient side unobtrusive
- ▶ Accommodates all IV poles and bed rails up to 1.75" thick
- ▶ Dimensions: 6" L x 2.75" W x 2.75" H
- ▶ Material: Polypropylene
- ▶ Weight: 4 oz.
- ▶ BPA & Latex Free
